

ENVIRONMENTAL POLICY

Introduction

Titan Heavy Lift recognises the urgent need to address environmental challenges and protect the planet for present and future generations. This policy outlines our commitment to sustainable practices, responsible resource management and reducing our ecological footprint.

Purpose

Titan Heavy Lift aims to contribute to global efforts to mitigate climate change, conserve natural resources and foster a sustainable future. This policy is a guiding framework for Titan Heavy Lift to integrate sustainability into our operations, promote environmental stewardship and contribute to a healthier planet.

Scope

The policy applies to all workers, contractors and visitors involved in Titan Heavy Lift's operations.

Responsibilities

Workers, contractors and visitors are required to:

- follow the systems of Titan Heavy Lift's environmental procedure
- handle chemical transfer with care
- report all environmental hazards
- report and manage all chemical spills
- dispose of chemical waste in the appropriate bins.

Management is required to:

- integrate environmental considerations into all aspects of our operations, decision-making processes and long-term planning
- comply with all applicable environmental laws, regulations and standards, as well as strive to exceed them whenever possible
- regularly monitor and assess our environmental performance to identify areas for improvement and implement effective strategies
- dispose of all harmful waste and/or by-products by approved methods when appropriate
- reduce and, where possible, eliminate harmful waste and pollution from our office facilities and the sites our assets visit.

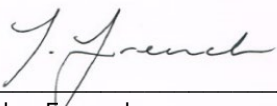

Policy

This policy has been created to demonstrate Titan Heavy Lift's commitment to mitigating its impact on the environment by promoting sustainable practices, conserving natural resources, reducing pollution and protecting ecosystems.

Conclusion

By aligning our practices with this policy, we aspire to inspire positive change and serve as a role model for others. Through continuous improvement, collaboration and responsible actions, we aim to create a more sustainable future for both the local community and the whole world.
